HerSpace: Breast Imaging Associates A Fact Sheet

HerSpace: Breast Imaging Associates (www.herspacebreast.com) is an independent breast imaging and diagnosis services center which was opened in 2002 by Beth M. Deutch, MD. HerSpace is the only specialized breast imaging group in Monmouth and Ocean counties.

Mission

HerSpace was designed to provide a compassionate, respectful patient experience while simultaneously pursuing the clinical objective of detecting and diagnosing breast cancer at its earliest, most curable stage.

Service Delivery Model

Unlike most imaging facilities, HerSpace offers:

- appointments in two weeks or less, (within 48 hours if not same day if there is already a problem);
- same day biopsy services for abnormalities detected during routine mammogram;
- state-of-the-art imaging technologies, including digital mammography and ultrasound.

State-of-the-art biopsy techniques including mammotome minimize procedure time, patient discomfort, recuperation and scarring.

Digital mammography has been shown to decrease the need for additional imaging or "call backs" by up to 30 percent.

Ultrasound increases the detection rate particularly in women whose breast tissue is difficult to assess via conventional film mammography.

More...

All procedures are performed and results interpreted by Dr. Deutch, one of New Jersey's most experienced and credentialed breast radiologists, and her staff.

Amenities

HerSpace is a tranquil, non-hospital or cancer center environment with parking right out front.

Services

- Full-field digital and film screen mammography
- Breast ultrasound
- Breast Magnetic Resonance Imaging (MRI)
- Stereotactic, ultrasound-guided and MRI-guided core biopsy (mammotomy)
- Needle localization for surgical biopsy
- Cyst aspiration
- Galactography
- Bone densitometry
- Physical Breast Examinations
- Genetic Education and Testing
- Consults/second opinion

HerSpace is an Academy of Clinical Radiology (ACR) accredited facility.

Payment Model

Imaging services are offered on a fee-for service basis. No-wait diagnostic (biopsy) procedures are provided on a fee-for-service basis but are partially reimbursable by most insurance plans. HerSpace staff will assist with providing the documentation for out-of-network insurance submission.

HerSpace: Breast Imaging Associates (www.herspacebreast.com) is located in Monmouth Corporate Park I, Building A, Suite 130, 187 State Highway 36 in W. Long Branch, East of the Monmouth Mall off Garden State Parkway Exit 105. Phone #: 732-571-9100.
